

JINK PUBLISHING

Quick, Easy & Fun Times Table Learning Guides

Maths is one of the most important subjects any child can learn. Times Tables, is the foundation for a basic understanding in multiplication and in the early development of a life-long and invaluable skill.

Young children can now learn Times Tables quicker and easier with these specially designed learning guides, developed in consultation with leading industry experts.

Supporting the national curriculum, these books are structured so that children can use them independently or in the classroom.

Written by M J Lawrence, celebrated children's book author and passionate educator, and with several children's learning books now selling on Amazon. To discover more, visit the website today...
