

Why The UK Government Desperately Needs YOUR Help In Reducing Harmful Emissions

And why they're willing to offer you a huge incentive!

Farmers all over the UK could qualify... now find out if you can too...

This applies to both residential farm property owners and tenants!

The UK government is committed to hitting their targets on climate change and they **desperately** need your help.

We may be leaving the EU but we're still **obliged** to play our vital part in **energy efficiency and conservation** as agreed under the EU directive.

Under the Directive, all EU countries are required to **use energy more efficiently** at every stage, from the production process right up to final consumption.

The government has already rolled out several energy saving schemes over the past few years.

Each one has been designed to meet their **EU directive obligations** and includes FREE loft insulation, FREE cavity wall insulation and the Affordable Warmth Scheme.

The latter scheme involved giving away free Electric Storage Heaters!

Many households and businesses have benefitted from lower energy bills as a result of these schemes... but it's not enough.

More needs to be done... and that's where you can help.

New Government Energy Saving Scheme Specially Designed To Help Farmers...

Farmers are often the **unsung heroes of the UK community**, quietly working away in the background, and spending countless hardworking hours on providing food to power the nation.

It's only fitting then that farmers, **both owners and tenants**, should be recognised and offered help where it really matters.

This help is now available in the form of **FREE** oil or LPG heating boilers.

Too good to be true?

Well, there lies the **problem**, which the government is now facing.

Because many of us believe there's no such thing a **free lunch**, some farmers think there is a catch, which has subsequently slowed down the uptake of the offer.

This is frustrating the government because the funding available for providing farmers with grants to acquire free oil or LPG boilers and installations, runs out this year... **and targets have not yet been met.**

Why You Should Accept This Completely FREE Offer While You Still Can...

Time is now running out and you really need to find out whether you qualify for the government's **Help to Heat Scheme** also known as the **Energy Company Obligation Scheme (ECO)**.

You might never get another chance to get a free heating boiler and begin to significantly reduce your heating and hot water costs.

However be assured, there is **absolutely no cost to you whatsoever.**

There's no catch... and everyone wins!

By simply accepting this free offer you will help the UK play a vital part in **energy conservation**, whilst substantially reducing the cost of your own heating bills.

A more efficient oil or LPG heating boiler could save you **hundreds of pounds** on your energy bills every year.

The scheme, which comprises all the big energy suppliers, has been rolled out right across the country and farmers everywhere have already benefitted... **now you could too!**

However, the scheme will come to an end this year but nobody is really sure exactly when, and that's why you need to take action now.

Everyone who gets this letter is being urged to find out ASAP if they qualify.

Here's what just two happy farmers had to say about the government's free oil and LPG boiler scheme...

“We decided to use Northern Boiler Grants after talking with Tom. It’s nice to have someone you can trust and put a face to. The whole process was easy; it wasn’t any hassle They even joined an outside tap to the mains water for us which saves pulling a pipe right across the yard. It’s just a case of turning a tap now.”

“We were really pleased, we even had our other house done, we rent it out but we benefited as well because we got a free boiler. We recommended Tom to our neighbours across the road as well.

They were going to have to pay £1000 with another company before speaking with Tom, but his installer, ‘0800’ came and fitted their new boiler for free the other week.”

Sarah & Jonny Wilson - Gate Farm

Do you think the process was worthwhile?

“Yes I did, I’m very pleased with it actually. It’s working well.”

Do you have any advice for anyone who may be unsure about using Northern Boiler Grants?

“I would say go ahead and do it. The new boilers will be more efficient. The one I have got in is doing a grand job, plenty heat and hot water. And what I like about it is the new controls give me a wider range than the old one did. It’s a lot simpler”

“The whole process was very good. The men who came were efficient and knew what they were doing. It was just a simple job really.”

Is there anything you would change about the process?

“No, I don’t think I would actually. I couldn’t think of anything I would change at all, no. I had faith in Tom after talking to another company. I feel like I have known Tom all my life.”

Herbie Kennedy – Park Croft

How Will You Know If You Qualify?

How will you know if **YOU** qualify for the government’s **Help to Heat Scheme?**

Here are the qualifying criteria...

- **Do you have an Oil /LPG Boiler/Aga/Rayburn that is over 6 years old, and also do you have radiators in most of your rooms?**
- **Do you or someone in your home receive any of the following: Working/Child Tax Credits, Income Support, DLA or Universal Credit?**

If you can answer **YES** to these 2 simple questions, chances are you **WILL** qualify and your application **WILL** be accepted.

Remember! This offer applies equally to both **owners** of residential farm properties (landlords) and their **tenants**.

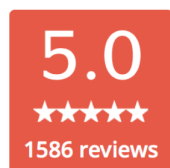

However, you could miss out on this valuable, **time-limited grant** if you don't get your application in soon... very soon.

Here's What You Will Get...

Once your application has been accepted and processed you will be entitled to a brand new, energy efficient oil or LPG boiler including full installation.

- **A High Quality, A-Rated boiler (To the value of at least £2000)**
- **A FREE Installation by selected professional installers, one of which has received over 1500 five star reviews on WHICH**

- **These specially selected professional installers, only install the very best quality boilers (in most cases 'A' rated Worcester Bosch)**
- **We take care of EVERYTHING else for you, including all the paperwork and anything that might otherwise deter MOST people.**
- **Each installation comes with a full 2-year warranty and you could save hundreds of pounds every year on your energy bills.**
- **And of course your old boiler will be removed and everything will be left clean and tidy on completion.**

This whole FREE package is valued at around £3,500.

Now isn't that worth a few minutes of your time to find out more?

But Wait! There's More... (For quick action takers only)

Time is of the essence and as mentioned previously, the government's **Energy Company Obligation Scheme** will end this year.

We don't want you to miss out so we're offering you even more incentives so that you'll take action **NOW** or at least within the next few days.

Incentive #1

Get £100 cash-back for your old boiler! We have partnered with a company offering scrap value, which we will directly pass on to you.

Incentive #2

If you qualify for the grant then you can also get £50 off any order of 1000 litres of oil through Carrs Billington.

Incentive #3

We'll give you *£100 for each person you refer to us and who successfully applies for the scheme.

* Receiving enquiries this way reduces our costs on advertising, so we can pass this saving onto you.

Who Are We?

I'm Tom Metcalfe and I'm in the business of helping other small businesses, take **full advantage** of government grants, schemes and incentives.

Right now, I'm working closely with farming related companies to help spread the message about the **Help to Heat Scheme**.

You can apply for the offer by calling us NOW on:

01697 472 830

< That's me with my kids.

Myself and my colleagues have been helping farmers just like you, reduce their carbon footprint at the **government's expense**.

I've been helping small businesses for over 8 years now and that's why I'm sending **YOU** this letter.

It's now **YOUR** turn to cash in on this particular scheme and get yourself a brand new energy efficient boiler.

Reminder!

- There is absolutely no cost to you whatsoever
- **You could qualify for a brand new OIL or LPG boiler**
- Free installation is included
- **Comes with several other valuable incentives**
- Your new energy efficient boiler will help you reduce carbon emissions
- **You help the government reach their target set by the EU Directive**
- Everyone wins! The Government... Landlords... Tenants

If you think you qualify for a free oil or LPG boiler then act now.

In the time it has taken you to read this letter someone has already made a successful application, **so don't leave it too late.**

Call me today and I'll take care of everything else for you.

Call me now on... 01697 472 830 or 07470 079 731

Kind regards

Tom Metcalfe
