

## Voiceover script - Altinet

In today's fast-moving world of online business, it's not always easy to keep up with the latest, state-of-the-art IT security solutions, leaving your company exposed to cyber threats and security breaches.

Add to that the complexity of storage, networking, application monitoring and cloud infrastructure...

Together with the need for highly trained and vetted staff... and...

The potential for problems and disruption becomes very real.

Thankfully, Altinet's team of experienced and highly trained experts are here to listen... and offer custom IT solutions to meet your organisation's complete and exact requirements.

We're trusted by many leading vendors, such as Barracuda, Sophos, Fortinet, Cisco, Microsoft and many more.

And all of them will testify... our customer service record is second to none.

Our service is specifically designed to help you, by first carrying out initial market research, then implementing product evaluations completely free of charge.

We'll make the procurement process simple and then provide 24/7 customer support throughout the entire length of the agreement.

If you're looking for a fully managed service offering, helping you to reduce your IT team workload, increase service flexibility and business security then why not take advantage of our highly resilient and secure infrastructure... with predictable costs.

Service costs can easily be tailored to suit your preferred payment plan...

Monthly, quarterly or annually... whatever makes it easier.

So if you're looking to...

Increase employee productivity, secure business critical data, eliminate all manner of cyber threats and dramatically improve application monitoring...

Find out how we can help...
