

Ted Alert VO Script

Walking in the fresh clean air is good for everyone and especially when you reach a certain age... when you have much more time on your hands.

Time to take in the views... enjoy your surroundings... time to stop... and stare... and wonder.

It's easy to lose track of time and even sometimes forget where you are... but with the Ted Alert GPS Tracker you won't ever need to worry about letting someone know exactly where you are... at any time.

That's because with the Ted Alert GPS Tracker you are continuously connected to our telecare centre 24/7.

Ensure you take it with you wherever you go.

Pop it in your pocket... just like you would do with your car keys.

Make it as routine as putting on your shoes before stepping out the door.

Using state-of-the art technology, the Ted Alert GPS Tracker has an inbuilt fall detector... just in case... and it's fully waterproof too.

It also has a geofence setting, which alerts the telecare centre should you wander outside a predefined geographical location.

With the Ted Alert GPS Tracker you can be confident that whatever outdoor activities you enjoy, you will always be within reach should you need assistance.

And if you do, you can simply press the SOS button and you'll be instantly connected to a real person, who will advise you, while they summon help... should you need it.

Your loved ones can keep up to date with your outdoor adventures too.

By simply downloading the Ted Alert app they will be able to instantly see where you are and if necessary, come to your aid.

The Ted Alert GPS Tracker is also useful for parents and kids, remote workers and intrepid adventurers.

The Ted Alert GPS Tracker... don't leave home without it.
